

Respina Calcium Grease CA

General purpose chassis greases

Description

Respina Calcium Grease CA greases are smooth, homogeneous calcium greases formulated with highly refined petroleum oil, calcium soap and fortified with performance additives. They are recommended for lubrication of automotive chassis, low speed bearings and other parts operating at temperatures from -10 to 70°C.

Specification and Approvals:

- DIN 51502

Advantages & Benefits

- Water resistant
- Prevent dust and dirt from reaching into the moving parts
- Superior adhesion provides good retention in chassis parts
- Protect metal surfaces from rust and corrosion

Typical Data

Property	unit	CA 2	CA 3	Test method
NLGI	-	2	3	ASTM D217
Thickener	-	Calcium	Calcium	-
Color	-	Brown	Brown	Visual
Viscosity at 40°C	Cst	100	100	ASTM D445
Drop Point	°C	95	95	ASTM D2265
Worked penetration	1/10 mm	265-295	220-250	ASTM D217

❖ Respina Calcium CA greases are formulated and produced in RESPINA LUBRICANTS blending site and presented data is based on standard tests under laboratory conditions and is given as a guide only.
